Continuing Education Courses

Disclosures:

1. Continuing education courses are not vocational in nature and do not lead to initial employment.
2. The course credits and hours do not transfer into any vocational program at Daytona College. Acceptance of transfer hours and credits is at the sole discretion of the receiving institution and most likely will not transfer to any school.
3. A certificate of completion is awarded at the end of the course.

Admissions:

1. Proof of Florida license to practice as a Registered Nurse.
2. Verification that the student has or is eligible for one of the following credentials:
 - a. CNOR - if the student is not certified as a CNOR at the time of admission, proof of certification must be submitted prior to awarding a Certification of Completion.
 - b. APRN - proof of recognition must be submitted prior to receiving the Certificate of Completion. If the student does not have experience in perioperative patient care then they must undergo an assessment by the instructor.
3. Certification in cardiopulmonary resuscitation (CPR) or basic cardiac life support (BCLS) or advanced cardiac life support (ACLS).
4. Letters of recommendation attesting to the applicant's experience as an RN and the applicant's knowledge, judgment and skills specific to perioperative patient care.

Refund Policy for Continuing Education Courses:

A full refund of all payments will be made if the applicant gives notice of cancellation and requests a refund in writing within three business days of signing the enrollment agreement, and has made an initial payment. After three business days, the applicant may cancel the contract by notifying the Director or his designee in writing prior to the scheduled start date of classes and receive of all payments in excess of the application fee. A full refund of all payments will be made if the applicant is reject by the College. No refunds will be given once the course has started.

ADDENDUM to the Daytona College February 1, 2019 Catalog

Course Descriptions:

Advanced Surgical Anatomy with Perioperative Theory (120 hours / 4 semester credits)

The course is designed to provide comprehensive applied surgical anatomy focused on extending basic anatomical knowledge with emphasis on the anatomical structures of those body regions in which surgery is most commonly performed and the diseases relate to the surgical patient along with patient care throughout the surgical arena for the Advanced Practice Nurse ("APN). Times, days and length of this course will be announced prior to enrollment and will be published.

Clinical Practicum with Perioperative Theory (150 hours / 4 semester credits)

The clinical practicum with perioperative theory is a supervised clinical experience of responsibilities and duties in the advanced role as a surgical assistant. The focus is directed on an independent role as an Advanced Practice Nurse as the surgical assistant. Times, days and length of this course will be announced prior to enrollment and will be published.

A calendar of start dates will be published.
