On Time Graduation Rate Calculation

The on- time rates are calculated based on students who graduated within 100% of the length of their program as defined by Daytona College. The calculation is as follows: number of students that completed the program in normal time, divided by the total number of students that graduated, then multiplied by 100%.

Graduation and Employment Rates (updated October 2023)

The graduation and job placement rates are calculated using the Accrediting Commission for Career Schools and Colleges' requirements for reporting annually via the Graduation and Employment Chart. The information in the below chart is for the 2023 Annual Report submitted in October 2023. The graduation and job placement rate information provided in this document reflects the performance for a specific segment for the time period specified in the summary of the calculation methodology. These disclosed rates reflect historical outcomes and should not be relied on by anyone as an implicit or explicit representation or promise of future outcomes or employability for any student following completion of a program of study. Numerous individual and market factors contribute to the likelihood of securing a job after graduation and the College has little or no control over many of these factors and, thus, cannot and does not guarantee or estimate the likelihood of employment to any student.

Rate Calculation Methodology (as per ACCSC – 2023 Annual Report). ACCSC Annual Reports are submitted each October.

Graduation: The number of students that graduated within 150% of their program length, divided by the number of available graduations within the specified cohort of start dates.

Employment: The number of graduates employed in an industry related field divided by the graduates available for employment within the specified cohort of start dates.

DAYTONA COLLEGE 425 S. Nova Road Ormond Beach, Florida Student Right-To-Know Graduation Rate, Retention Rate, Diversity Updated July 1, 2023.

Pursuant to the federal Student Right-to-Know Act, on an annual basis Daytona College determines and makes available an overall graduation rate of certificate or degree seeking, first-time, full-time, undergraduate students. In addition, the college provides the Student-Right-to-Know graduation rate disaggregated by various sub-categories, as determined and defined by the U.S. Department of Education.

Please read the following: The Student Right-to-Know graduation rate is based on a “cohort study”, meaning that a group of (“cohort”) students is identified and then monitored over a period of time. The current rates set out below are based on the group of students who enrolled for the first time, as full-time students, between September 1, 2016 and August 31, 2017. Daytona College uses a Full-Year Cohort as defined by IPEDS. The rate represents the number of those students who earned their degree or certificate within 150% of the normal time required to complete their program. It is important to note that the Student Right-to-Know graduate rate is calculated on one rate for the entire college, not a rate for each specific program. The Student Right-to-Know graduation rate is based on data reported by the college in connection with the National Center for Educational Statistics (NCES) integrated Postsecondary Education Data System (IPEDS) 2022-2023 Graduation Rate Survey. This survey is completed in the Winter IPEDS reporting time frame.

Student Right to know, Retention Rates for First Tim, Full Time Students

Daytona College reports Graduation and Placement rates to The Accrediting Commission for Career Schools and Colleges (“ACCSC”) on an annual basis and is located within this booklet. These rates are disclosed per program. The below retention rate is based on data reported by the College in connection with the NCES, IPEDS Fall Enrollment Survey.

Daytona College reports an annual Federal retention rate, which is the percentage of first-time, full-time students from the previous fall who are still enrolled, or successfully completed their program, the following year. This retention rate is based on a cohort study and calculated at as one rate for the entire school, not a rate for each specific program. The most recent Student- Right-To-Know retention rate for Daytona College is set out in the below chart. The below retention rate is based on data reported by the College in connection with the NCES, IPEDS Fall Enrollment Survey. The surveys are completed during the IPEDS Winter (April) reporting time frame.

As of this reporting period, Daytona College is considered a four-year institution due to the approval of the Nursing, RN to BSN program. Please interpret the below data with caution. Daytona College had not enrolled any students in the Nursing (RN to BSN) Bachelor's degree program during the time period for this survey. Daytona College also offers Certificate, Diploma and Associate of Science and Occupational Degree programs. Fall Enrollment is defined as any student who was enrolled in the institution at any time between August 1 and October 31, 2022. First-time students are students who have never attended school prior to enrolling at Daytona College. For all other programs other than the Bachelor’s Degree in Nursing: **The retention rate for the fall enrollment is 86%. (180 total, 77 continuing, 79 graduated and 24 dropped). First time student retention rate is 90% (30 total, 9 continuing, 18 graduates and 3 dropped).**
